#### INSTRUCTIONS:

Begin putting panda together by punching a 3/4" circle from center of small Black label, for panda tail. For panda body, stick tail just behind one large Ecowhite label. Stick body with tail onto card, leaving room at top of card for head and ears. Assemble panda head before sticking to card. Make panda ears by cutting a small Black label in half. Stick in place onto medium Ecowhite label. Punch two 3/4" circles from centers of small Black labels and stick in place just below ears. Adhere googly eyes on top of Black punches with gluedots. Finish assembling head by affixing one Black brad as nose. Stick panda head onto card slightly overlapping body. Cut two more small Black labels in half for paws and draw lines for claws with silver marker. Stick paws onto heart card as shown, using them to keep it in place on panda body. Write name or message onto heart card.
