

## ✂ MOTHER'S DAY SILHOUETTES

how-to  
ideas!

### MATERIALS NEEDED:

Photograph of your subject (profile view) • Vellum • Black Text • Superfine White Text • Fine Paper of your choice • Scissors or Craft Knife and Cutting Mat • Super Tacky Tape  
Foam Squares (optional) • Pencil • A7 Folded Card or A7 Box Mailer and ribbon

### INSTRUCTIONS:

Take a profile photograph (actual photo or printout of photo) and trace onto Vellum paper to create the silhouette shape. Cut out the silhouette shape from black paper with scissors or craft knife. Trim fine paper to fit your card or box mailer. Cut an oval or circle out of white paper, and mount onto a sheet of fine paper using Super Tacky Tape. Mount silhouette shape onto oval or circle (use foam squares if desired to add dimension). Print or cut out a banner from Superfine White paper and use to add a personal message to your creation.

You can also create silhouettes using our precision cutting machine, the Silhouette Cameo. This tool is especially helpful if you plan to make multiples of the silhouette. Begin by following the first 2 steps above, tracing the profile photograph onto Vellum paper, and cutting from Black paper. Then scan the black silhouette cut out and place into the Silhouette program.
