

Snaps:

- 1/8" hole punch
- Snaps
- Setter
- Hammer
- Mat

Eyelets:

- 1/8" hole punch
- Eyelets
- Setter
- Hammer
- Mat

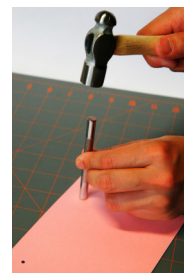

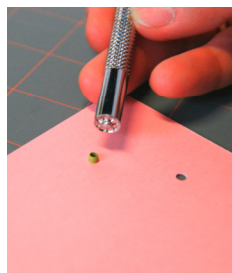

Brads:

- 1/8" hole punch
 - Brads
- Optional: boot punch for adding layering.

Steps for Setting an Eyelet or Snap: <http://www.paper-source.com/cgi-bin/paper/item/Paper-Source-Eyelet-Setter/2903.013/842612015375.html> (link to setter)

- Punch hole using 1/8" hole punch (we carry a nice 2" reach) that fits our eyelet, brads & snaps
- Place snap or eyelet into hole—with the good side facing up
- Holding the snap or eyelet in place—flip the project/paper over
- Place setter—with the ridged end into the reverse side of snap or eyelet and pound setter with a hammer—providing 3-5 good whacks—until the edges splay apart securing paper.

Steps for setting Brad:

- Punch hole using our 1/8" punch—through papers
- Stack in order and place the brad through the top of the papers
- Bend prongs apart on back and you are done
