INSTRUCTIONS:

Begin by printing names onto labels. Use the apple template Ⓐ as a guide to cut your red stickers into apple shapes and set aside. Cut leaf Ⓑ from Clover paper and stem Ⓒ from Chocolate paper using templates. Fold leaf in half (lengthwise) and stick both leaf and stem behind apple sticker. Punch 3/4" circles from Clover and Chartreuse paper. You will need at least two of each color to make one worm. Adhere together using tiny Zots and stick to apple. Punch two 1/4" circles from Eco-White for eyes. Adhere to worm's face with tiny Zots. Draw in eyes and mouth. Stick finished apple onto fold of lunch bag!
