<input type="checkbox"/> Envelope
<input type="checkbox"/> Penguin Rubber Stamp
<input type="checkbox"/> Black Embossing Powder
<input type="checkbox"/> Holiday Printed Washi Tape
<input type="checkbox"/> Paper Straw | <input type="checkbox"/> Round FaLaLa Sticker
<input type="checkbox"/> Evolution Crafting Tool
<input type="checkbox"/> Mint Paper
<input type="checkbox"/> VersaMark Watermark Inypad
<input type="checkbox"/> Santa Hat Sticker
<input type="checkbox"/> Memory Tape Runner
<input type="checkbox"/> Super Tacky Tape 1/4" |
|--|--|

INSTRUCTIONS:

1. Emboss a piece of mint paper using the Evolution Machine to create a 3D effect that looks like an iceberg. If you don't have an Evolution Machine, fold a 2" X 3" strip of the mint paper in half horizontally, and in half again until it is folded into a 1" square. Then, fold diagonally. This will create a beautiful triangle shaped texture for your iceberg.
2. Once you open up the folded or embossed mint paper, cut a curved edge on the left side of the paper to shape it into a little iceberg shape.
3. Adhere the edges of the iceberg using a tape runner and place it in the bottom right corner of the note card.

INSTRUCTIONS (*continued*):

4. Next, stamp the penguin stamp in the VersaMark Inkpad just above the ice float.
5. Coat with the black embossing powder and remove access powder. We use the No Spill Tray Mate for a quick cleanup.
6. Emboss using the Embossing Heat Tool.
7. Add some flair to the penguin with a Santa Hat Sticker.
8. Cut a paper straw to about 3" long and wrap a piece of holiday printed washi tape to the top of the straw. Cut a triangular slit on the edge of the washi to create a flag
9. Adhere the straw to the card with super tacky tape and attach to the card with foam squares for a 3D affect.
10. Write a hand written note, place into the fuchsia envelope and seal with a falala sticker!
